20th May 2015

Dear valued Indium customer,

Indium Corporation's products have been present on the Bulgarian market for the last 15 years. During this time we have learned that Bulgarian specialists have profound knowledge and experience in the field of electronic production and the country has embraced the industry. To contribute to its further development, Indium is focused on providing customers with quality and service to the highest industry standards.

In line with the above we are delighted to announce the establishment of a new cooperation between our exclusive agent for Bulgaria, Electronic Assembly Products BV (EAP), and Triana Ltd, Sofia, Bulgaria. (Triana) Mr. Gérard Lautenslager (EAP) has been working with us since 1998 has contributed to the growth of the Indium brand in Bulgaria. Triana, represented by Mr. Nikolay Berov will focus on further market development, as well as technical and logistic support at a local level.

Mr. Berov is considered one of the pioneers in the Bulgarian electronic industry. His knowledge and experience has been recognized beyond the borders of Bulgaria, we are honored that he has accepted this position.

The new arrangement was agreed May 1st, 2015 and we fully expect Triana to deliver the quality of support and service expected of our representatives around the world. We would like to express gratitude to our former partner Phonotronica and personally to Mr. Georgi Gergov. Phonotronica have recently launched their own electronic production in Sofia, and we have terminated our relationship with them to avoid a possible conflict of interest. We wish them luck in their new venture.

Your new contact details:

Electronic Assembly Products BV, Helftheuvelweg 11, 5222 AV 's-Hertogenbosch, Nederland, tel: +31(0)73 612 49 44, e- mail: info@eapbenelux.eu
